Author Guidelines — Submission Preparation

Extended Abstract | Full Paper (AIP Conference Proceedings¹)

1. Submission Overview

EPIC 2026 adopts a **two-stage submission process**. Authors first submit an Extended Abstract. Those accepted will be invited to submit a Full Paper for double-blind peer review, with publication targeted in **AIP Conference Proceedings¹** for independent publisher review and Scopus indexing.

Stage	Deliverable	Word Count	Template
Stage 1	Extended Abstract	500 – 1,000 words	Extended_Abstract_Template_Jun1_2026.docx
Stage 2	Full Paper (invited only)	4 – 8 pages	AIPCP_Article_Template_Sept1_2023.docx

2. Extended Abstract Guidelines

The Extended Abstract is the **first stage of submission**. It will be screened by the editorial team for scope, originality, and quality before being invited to the full-paper stage.

2.3 Formatting Rules for Extended Abstract

- Apply paragraph styles from the template (Paper Title, Author Affiliation, Abstract, Heading 1/2/3, Paragraph, References).
- DO NOT display the title in ALL CAPS — use initial capital letters only.
- DO NOT add headers, footers, or page numbers — these will be added by the publisher.
- Figures and tables may be included but must be cited in the text and placed close to the first mention.
- Figure caption: Times New Roman 9 pt, Centered. Label as FIGURE 1, FIGURE 2, etc. (bold, upper case).
- Table caption: Times New Roman 9 pt, Centered, placed above the table. Label as TABLE 1, TABLE 2, etc. (bold, upper case).
- Equations: centered, numbered on the right-hand side using the Equation paragraph style.

⚠ NOTE: The Extended Abstract template (Extended_Abstract_Template_Jun1_2026.docx) uses the same AIP Conference Proceedings¹ formatting rules as the Full Paper. Always write directly in the template — do not copy and paste into a blank Word document.

3. Full Paper Guidelines (AIP Conference Proceedings¹)

Full Papers are **by invitation only**, following acceptance of the Extended Abstract. These papers will undergo double-blind peer review and, if accepted and presented, will be submitted to **AIP Conference Proceedings¹** for independent publisher review and Scopus indexing.

3.4 Figures

- Place figures close to their first mention in the text — figures may NOT be grouped at the end of the paper.
- Figure caption style: Times New Roman 9 pt, Centered, placed below the figure.
- Label: FIGURE 1. (bold, upper case), followed by normal description text.
- Multi-part figures: label each part (a), (b), etc.
- In text: spell out "Figure" at the start of a sentence; use "Fig." elsewhere.
- Color figures are allowed online. For printed copies, check with the organizer about color costs.
- If printing in black-and-white: remove all color references from captions and text.

3.5 Tables

- Place tables close to their first mention in the text.
- Table caption style: Times New Roman 9 pt, Centered, placed above the table.
- Label: TABLE 1. (bold, ALL CAPS), followed by description text.
- Tables should have rules at top, bottom, and below column headers only — no vertical rules.

3.6 Equations

- Center all equations; place equation numbers flush right in parentheses, e.g., (1).
- Use the Equation paragraph style from the AIP template.
- Recommended: use the "Old Style" Equation Editor (Insert → Object → Microsoft Equation 3.0) for consistent font matching with Times New Roman text.
- Refer to equations in text as "Eq. (1)" or "Equation (1)".

3.7 AIP¹ Critical Formatting Rules

⚠ NOTE: These rules are mandatory. Papers that do not comply will be returned for revision or excluded from the proceedings.

1. DO NOT alter the template margins — they are precisely set for AIP's production process.
2. DO NOT add headers, footers, or page numbers — AIP Publishing adds these during production.
3. DO NOT display the title in ALL CAPS.
4. DO NOT submit a 1-page paper — minimum is 2 full pages; abstract-only submissions are rejected.
5. DO NOT use copyrighted figures/content without written permission and acknowledgment in the paper.
6. Embed all fonts in the PDF — unembedded fonts make PDFs unusable and will cause delays or removal from proceedings.
7. Check the PDF carefully before submission — verify equations, figures, and layout render correctly.
8. Line spacing must be 1.0 throughout — no double spacing anywhere.
9. All author–affiliation and author–email associations must be correct before submission.

4. Reference Format (AIP¹ Style)

References must be numbered using Arabic numerals followed by a period, e.g., **1**. References must be cited in the text in order of appearance using square brackets, e.g., [1], [2,3].

4.1 Reference Examples

Type	Format Example

4.2 In-Text Citation Rules

- Number references in the order they first appear in the text.
- Use square brackets: [1] or [1, 2] or [1–3].
- Do not use author-date style (Harvard style) — AIP¹ uses numbered references only.
- Ensure every reference in the list is cited in the text, and every citation in the text appears in the reference list.

5. Originality, Plagiarism, and Publication Ethics

Plagiarism Check	All submissions are screened using iThenticate before peer review.
Similarity Threshold	Maximum 20% (excluding references and direct quotations)
Self-Plagiarism	Reuse of the author's own published text without citation is not acceptable.
Originality	Submitted work must be original and not published or under review elsewhere.
Ethics Standard	COPE (Committee on Publication Ethics) guidelines — see epic5th2026.org/editorial-policy
Copyright	Figures/content from other publications require written permission.

⚠ NOTE: Manuscripts exceeding the similarity threshold will be returned for revision. Papers with clear misconduct (fabricated data, dual submission) will be rejected and reported per COPE guidelines.
